Description

HLVP15 12V/24V Vacuum Pump with Single/Double Head Brushless Motor

Basic Parameters

Basic Parameters HLVP15-AU		HLVP15-BU	HLVP15-CI
Effective flow	11L/min	14L/min	11L/min
Negative pressure 0.062MPa		0.062MPa	0.082MPa
Positive pressure	0.12MPa	0.16MPa	/
Power	8W	10W	10W
Noise	65dB	70dB	70dB
Control method	PWM&Fixed speed work	PWM&Fixed speed work	PWM&Fixed speed work
Net weight	240g	380g	360g
Rated voltage	12V/24V	12V/24V	12V/24V
Motor type	Brushless motor	Brushless motor	Brushless motor
Motor lifetime	8000 H	8000 H	8000 H
	(Under normal temperature and pressure, no-load operation)	(Under normal temperature and pressure, no-load operation)	(Under normal temperature and pressure, no-load operation)
Control method	Wire color description: red wire (VCC) black wire (GND) white wire/blue wire (PWM) yellow wire (FG) Two speed regulation modes: PWM and 0V~5V, PWM speed regulation: 10kHz~30kHz, amplitude: 5V. The control ratio is 0%~10% without rotation, 11%~100% speed regulation range. Analog voltage speed regulation: voltage 0V~5V, 0V~0.5V motor does not rotate, 0.6V~4.5V speed regulation range. Yellow line speed feedback, connect to oscilloscope probe or host computer. 1 pulse/rev Speed (rev/min) = FG signal *60 Full speed operation: positive to red wire and white/blue wire; negative to black wire.		
Supplementary instructions	Temperature range: 0°C~50°C; Relative humidity: <80% (no condensation) The above parameters were tested at standard atmospheric pressure, at room temperature of 25°C, with water as the medium and on load pressure on the pump (no drop in the liquid) Test results at standard atmospheric pressure, room temperature 25°C, with water as the medium and no load pressure on the pump (no liquid drop). Noise test: ambient noise 35dB, product on 5mm thick sponge pad, decibel meter at a distance of measured at 500mm The performance parameters of the product are influenced by the environmental conditions (air pressure, temperature, humidity, etc.), the state of the medium (temperature, density, viscosity, chemical properties, etc.), and the performance of the product. The above parameters are for reference only.		
Optional accessories	PWM speed control board: 2405.2		
Product material	Plastic, metal, PCB
